September 22, 2020

With reference to our discussion regarding the development of web application which core area of operation are categorized into:

- E-Commerce
- E-Dating Forum
- Consultation
- Blogging System
- E-Learning

and others

As discussed, the design is subject to addition or removal of contents/feature during the process of development to achieve clients' taste which could possibly attract charges in addition to the prepared costing table below depending on how robust the changes may be. And of course, some of the changes may be implemented without charges

COSTING

ITEMS	COST (N)
User Interface Layout & Design	50,000
Database Design	30,000
Backend Development	50,000
Security Configuration	20,000
Web Domain and Hosting (annually)	35,000
TOTAL	185,000

GRAND TOTAL= #185,000 (ONE HUNDRED AND EIGHTY-FIVE THOUSAND NAIRA ONLY)

Above is the standard fee for deployment of the website.

This fee is subject to negotiation
